

## IDA Disclaimer

The International Dyslexia Association supports efforts to provide dyslexic individuals with appropriate instruction and to identify these individuals at an early age.

The Association believes that multisensory teaching and learning is the best approach currently available for those affected by dyslexia. The Association, however, does not endorse any specific program, speaker, or instructional materials, noting that there are a number of such which present the critical components of instruction as defined by the Task Force on Multisensory Teaching which works under the guidance of the Association's Teacher Education Issues Committee.

Refer to IDA's [Comparison Matrix of Multisensory, Structured Language Programs](#).
